

IDEATION

Price & Quality

Florida Key West enjoys a definitive price advantage on our competition while offering the highest quality products in all categories. Both the Foodservice and Industrial categories benefit from our larger economical price point options with our products.

Authentic Key Lime Juice is produced from 100% juice from “Key Limes”. There are many other lime juice products on the market from regular limes. The USDA standard of identity for lime juice is 6.0 brix. Our authentic Key Lime Juice is 7.0 – 7.1 brix giving our product a much bolder flavor. This flavor profile is desirable as a component in many food items such as pies, cakes, salad dressings, marinades and margarita mixes.

Florida Key West, Inc Key Lime Juice Company is a 30 year old company that specializes in original, authentic Key Lime Juice. Florida Key West also produces key Lemon Juice, lemon and lime juices from concentrate, speciality marinades, and a full line of cocktail mixers.
